DETAILED ACTION

1. Claims 1-6 are in the application.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Frachon et al (Fr 2,536,373).

Frachon et al disclose a device for fixing vertically installed cargo pressure tanks supported on a lifting frame and including a liftable cassette, generally shown in figure 9, wherein the pressure tanks are interconnected by means of an along the cargo pressure tanks movable guide 1.

Allowable Subject Matter

4. Claims 2-5 are rejected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claim 6 is allowed.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kohn et al (3,270,700) and Phelps (2,537,085) disclose cylindrical pressurized containers in a ship.
